

Wiedenbach-Brown to Join USESI Family of Distributors

ANNOUNCEMENT PRESS

CHESTER SPRINGS, Pa., July 13, 2006 – US Electrical Services, LLC (USESI) today announced the signing of an agreement to purchase the business of Wiedenbach-Brown Co., Inc. (WB) effective July 19, 2006.

Founded in 1913, WB has earned the reputation of industry leader in national account lighting and electrical supply. Headquartered in Westchester County, New York, WB has offices in Hicksville, New Rochelle and Hawthorne, New York; Boston; Columbus; Kansas City; Los Angeles; and Seattle. Current year sales for WB are forecasted to be approximately \$90M.

According to WB owners Christopher Brown and Elisabeth Brown-Daley, USESI offered the greatest opportunity for the continued growth and success of WB. “We are excited to become part of the growing US Electrical Services family. USESI understands the importance of local decision making and emphasizes client service – which is crucial to our business and profitability.”

James Leahy, President of WB, added, “Joining USESI is an opportunity to become part of a company that is redefining electrical distribution. Not only is this transaction exciting for WB management and our associates, but it will greatly benefit our clients.”

“WB is a first-class company and a standard of excellence in national account electrical supply. We are extremely pleased to have WB as part of US Electrical,” said Richard Worthy, President and CEO of USESI.

WB will retain its name and operations. The current management team, including owners Christopher Brown and Elisabeth Brown-Daley, and James Leahy, will remain with the company.

Wiedenbach-Brown Co., Inc., a New York corporation, specializes in providing electrical products and services to national account companies across the United States. For additional information, please see www.wblight.com.

US Electrical Services, LLC, a Delaware limited liability company with principal offices of operation in Chester Springs, Pa., is engaged in the wholesale distribution of electrical products and related services. For more information, please contact info@usesi.com.
